HDT’s Hunter WOLF (Wheeled Offload Logistics Follower) is a rugged 6x6 load-carrier for dismounted infantry. Closely matching the mobility of infantry, the Hunter WOLF can traverse narrow trails, steep slopes, and dense jungles. Using only internal fuel, the vehicle has a range of over 160 km (100 mile) with a 96-hour endurance. The vehicle’s JP-8 / electric hybrid powertrain provides silent operation capability.

The ruggedness and simplicity of Hunter WOLF make it very affordable. The system’s modular architecture and full compliance with the Army’s interoperability protocols makes the vehicle easy to upgrade, using a wide variety of modular mission payloads.

The HDT Hunter WOLF is designed to support future growth, with an internal 20 kW generator that can export up to 15 kW of power. Hardpoints on every surface allow heavy payloads and armor kits to securely mount to the vehicle’s frame.

**KEY FEATURES**

- Rugged design, developed by HDT specifically for demanding conditions
- Carries over 450 kg (1,000 pounds) off-road more than 160 km (100 miles) using internal JP-8 or diesel. Can carry up to 700 kg (1,500 pounds) without significant reduction in performance
- 96 hours of operations without resupply
- Exports three to five kilowatts of power, while on the move or while halted to supply a small base camp
- Open architecture and full compliance with the Inter-Operability Protocol (IOP)
- Series electric hybrid powertrain provides silent operation capability
- Demonstrated modular mission payloads include:
  - Remote weapon station with M240B, M134, M2, and M240LF/XM914
  - Flail and mine roller (won JIEDDO Dismounted Route Clearance Competition)
  - Autonomy kit and Follow-Me kit
  - Dual stretcher mounts for CASEVAC
  - Lightweight Expeditionary Bridge
  - Backhoe / loader kit

Living fire of 30mm XM914 autocannon on remote weapon station
### Specifications

</table>

### Modular Mission Payloads

- **Low Ground Pressure Kit**
- **CASEVAC**
- **Tethered UAV**
- **120mm Mortar Carrier**
- **MICLIC Breaching Kit**
- **30mm RWS**
- **TOW Missile**
- **Pintel M2 & Armor**
- **HUNTER WOLF Small Multipurpose Equipment Transport (SMET)**
- **Combat Engineer**
- **Backhoe / Loader**
- **Door Breacher Kit**
- **Trail Clearance: Flail**
- **Lightweight Expeditionary Bridge**
