

HDT's pTOC is a lightweight, mobile, COTS-based C2 system that can be set up in minutes. The smallest of our C5ISR platforms, the HDT pTOC is ideal for small unit operations, initial / early entry teams, mobile command, briefing and mobile training.

Highly customizable, the HDT pTOC features standard sized projectors with wide screen displays up to 60 inches diagonally as well as pico projectors with 30 inch screens diagonally. Options include projection-based displays, PCs, various VTC platforms, printers, scanners, handheld GPS units, range finders, and any other equipment designated to meet mission requirements.

pTOCs are contained in a single transport case with in-line wheels. Case sizes will vary depending on contents.

Supported input devices include PC / Mac computers, smart phones, broadcast receivers, surveillance feeds, tablets and DVD / Blu-Ray players. pTOCs are highly customizable with components including projection systems, PCs, routers, printers, GPS devices, etc.

Contact your HDT representative for a tailored solution.
