

REPLACEMENT PARTS FOR HDT THOR[®] 200HP

HDT Fully Mission Capable Packs are a convenient way to order common replacement parts for THOR[®] 200HP. Packs for ECU relocated setup replacement parts, routine maintenance or standby replacement parts packs are available.

DIESEL ENGINE GENERATOR SET PACK

The Diesel Engine Generator Set Pack includes replacement parts for the engine, generator, battery charging subsystem, engine cooling subsystem, engine exhaust subsystem and 24VDC output. These are parts that directly support providing power to other subsystems within the THOR 200.

REFRIGERATION / AIR HANDLING PACK

The ECU / Air Handling Pack includes the replacement parts for the refrigeration assembly, including the compressors, heat exchangers (evaporator and condensers), filtering and miscellaneous refrigeration piping and components as well as the air handling assembly that includes high pressure air blower, aftercooler coil, ducting, filtering and supporting power, controls and miscellaneous electronic components. These are the parts that directly support providing conditioned air from the THOR 200.

TRAILER PACK

The Trailer Pack includes replacement parts for the trailer assembly – including the frame, wheels and brake subsystem.

BODY PACK

The Body Pack includes the replacement parts for all the body assembly, including door latches and hinges.
