

# MEDICAL 25 BED SYSTEMS

Square and Hub and Spoke Configurations

Rapid deployable infrastructure system provides support for 25 patients complete with power generation, heating and cooling, and water distribution. The system is free-standing and designed to be set up in 2 hours. It only needs fuel, a water source and oxygen to be operational. System can be augmented with medical equipment and supply sets to provide for a total turnkey solution to surge hospital capacity. Design promotes efficient traffic flow and improved utilization of staffing resources.

The hub and spoke version of the 25 bed system features a center core that acts as a control point when joined with open end boot connectors.

## KEY FEATURES

- Rapid deploying shelters for Mass Casualty Event Response
- 25 bed, isolation capacity
- Boot connectors
- Lighting
- Complete with heating, 3.5 ton ECU, and water distribution system including showers and sinks
- System only needs power source, water source, and oxygen to be operational
- Chairs, tables, desks
- Waste containers
- Fire extinguishers
- Cargo trailer
- Center core that acts as a control point when joined with open end boots
- Free standing and designed to be set up in two (2) hours
- Medical equipment included can be tailored to meet your specific requirements
- Beds included with this system
