

HDT BASE-X® MODEL 307 SHELTER

A Multi-Function Shelter for 14 – 18 Personnel

The HDT Base-X Expedition Shelter system patented folding frame is recognized world-wide as the most advanced, lightweight, rapid-deploying tactical soft-walled shelter system on the market today. The unique patented folding frame design gives the system its superior strength and its rapid set-up and strike capabilities. This performance is achieved while keeping the system to a minimum weight and size when packed, making it more mobile and easier to embark. Missions that require speed and agility have relied on HDT's modular shelter systems design allowing for modular complexing to segment various activities. Our modular shelter systems allow rapid response to changing threats. HDT Base-X Shelters are user-friendly. The advanced frame guarantees quick setup and superior strength.

The Model 307 provides an interior clear span of 18' wide by 35' long with 8 entry and egress points. This shelter will house between 14 – 18 personnel. It is also ideal for brigade- and regiment-size command and control, medical, communication, and logistics operations.

KEY FEATURES

- Lightweight, low-cube, man-portable
- Pre-installed floor, electrical wiring and HVAC plenum
- Meets or exceeds all US Military requirements
- No ancillary equipment required for setup or strike
 - Set up in minutes with only 4 personnel
- Operational in extreme weather conditions
- User friendly set up and tear down
- The Marine Corp standard
