

HDT BASE-XPRESS® MODEL 400 SERIES

An Extremely Lightweight, Rapidly Deploying Shelter System

HDT is widely recognized as an industry leader in the design, engineering and manufacture of expeditionary soft-wall shelter systems for military, first responder, emergency response, and commercial markets. Evolving from our mil-spec, combat-proven Base-X® series shelters, the Base-Xpress Model 400 series shelters utilize a patented articulating frame, constructed from aircraft-grade aluminum. The lightweight and cost-effective Base-Xpress Model 400 series shelters offer rapid setup and strike capabilities and reduce the logistical burden associated with legacy shelters.

For emergency/tactical operations centers, base camps, field hospitals, triage, recovery, mass gathering, disaster/humanitarian relief protection, or outdoor workspace protection applications – The HDT Base-Xpress Model 400 Series shelter systems have you covered.

KEY FEATURES

- Lightweight and easy to transport or carry
- Setup in as little as 90 seconds with two people
- Rated for extreme environments
 - Snow load: 5 lbs per ft² (0.24 kPa)
 - Wind: 55 mph (88.5 kph) sustained / 65 mph (104.6 kph) gusts
- Scalable – multiple shelters can be joined together through door openings
- Durable construction for extended deployments in austere conditions
- Includes ground anchors and wind lines
- Optional liner available
- Accessories include: lights, flooring, power generation, air conditioners, heaters, command and control components, hygiene showers, medical/first aid components, ruggedized furniture and waterproof cases
