

HDT DRASH® TURF CART, 5 TON ECU HD

60,000 BTU/H (17.6 kW) Air Conditioning

HDT's DRASH 5 Ton ECU offers 60K BTU/H (17.6 kW) cooling capacity. The unit is equipped with eight supply ducts.

An HDT DRASH Turf Cart is available for use with the DRASH 5 Ton ECU. It is designed to easily transport DRASH ECUs weighing up to 2200 lbs (997.9 kg). This storage tray is capable of holding up to 120 lbs (54.4 kg) and has four tie down rings to safely secure the unit before moving. The turf cart color is available in tan or green. The towbar is equipped with two front wheel brakes. When towbar is released, the weight of it holds the brakes when ECU is in operation.

KEY FEATURES

- Eight (8) 4" supply ducts with storage bags, cap is available to cover the unused 4" ports
- Customized adaptor plenum (ECU outlet) is available to distribute cold air to suit various applications, see below
- 2,200 lbs (997.9 kg) cart capacity
- Includes handle with 3" diameter tow ring
- Front wheel steering
- Cart braking capability
- Low center of gravity with wide base, heavy duty cart
- Ease of ECU filter replacement, no interference with cart wheels
- Electric resistive heat is built-in, additional fuel fire heater is optional upon request
- Military standard ECU used in the TMSS Medium System
