

DRIVE-THRU SHELTER SYSTEM

Point of Distribution System (POD)

HDT Global offers expeditionary shelter systems for rapid incident response. The large, clear span shelters serve as large-scale points of distribution (POD), mass medical diagnostic or dispensing operations, and mobile security / inspection sites. HDT's turn-key Drive Thru shelter systems are self-sustaining, complete with power generation, heating and cooling capabilities.

The entire system sets up in one hour with minimal personnel. HDT shelter systems can be tailored to meet your unique operational requirements.

KEY FEATURES

- Rapidly-deployed shelters for point of distribution systems: mass medical screening, immunization / vaccination, medication dispensing, food and supplies distribution center, population control and more.
- Two lanes for efficient traffic flow.
- Center operations control shelter.
- Free-standing – can be set up virtually anywhere.
- Complete system includes power and cooling.
- Medical equipment / supplies included can be tailored to meet your specific requirements.
