

HDT THROW N' GO BERM LINER

Secondary Spill Containment Berms

Manufactured with 24 inch sidewalls, the HDT Throw N' Go containment liner is designed specifically for secondary containment of large tanks and bladders. The increased sidewall height allows for a smaller footprint while providing complete containment. The unique design of this containment liner allows for quick and easy access without the need to lower large containment barriers used in other containment solutions.

KEY FEATURES

- Meets U.S. federal regulations for spill containment
- Provides portable instant secondary containment for fuel bladders
- No assembly required
- Clean and store for repeated use
- 2' wall availability permits smaller footprint
- Custom sizes available
