

# HDT THROW N' SNAP BERM

Secondary Spill Containment Berms

The HDT Throw N' Snap Berm is a modified version of our Throw N' Go self-rising berm. The Throw N' Snap Berm can be used as a self-rising berm or, when needed, the sidewalls can be raised and supported with stiffeners to provide extra assurance in inclement weather.

## KEY FEATURES

- No assembly required
- Walls lay flat when not in use
- Walls can either be used in an upright position using interior wall supports, or can lay flat without affecting functionality
- Can be driven on at any angle
- 2' wall availability permits smaller footprint
- In the event of a spill, walls automatically rise to contain fluid
- Optional built-in track mats help prevent damage to the berm
- Meets U.S. regulations for spill containment
- Heavy-duty 30 ounce fabric is appropriate for water, hydrocarbons, and most chemicals
- Easily emptied through 3/4" drains
- Most versatile berm on the market
- Custom sizes available
- Patch kit included
