

HDT GROUND TARP PACKS

Example Tarp kit includes tarp, straps, stakes, nails, and bag

HDT ground tarp packs are a useful template to determine stake, stake plate and shelter placement for quick deployment of AirBeam® shelters. The tarps also provide the correct location, distance and orientation of shelters and vestibules when complexing multiple shelters.

HDT ground tarps provide an extra layer of protection against rough terrain, heavy equipment or foot traffic and can help extend the life of the shelter's fabric floor.

AFTERMARKET SUPPORT FOR:

AirBeam® 2011

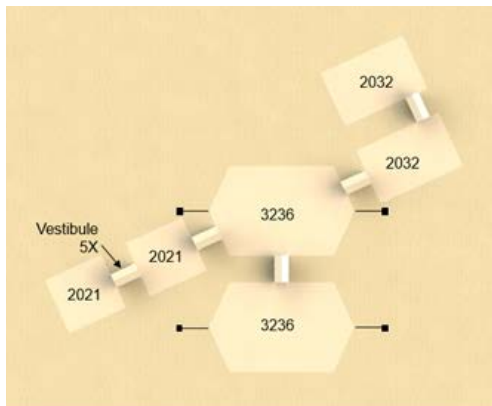

AirBeam® 2021 / 2032 / 2064

AirBeam® 3236
