

# HDT BASE-X® MODEL 303 SHELTER

*A Multi-Function, Medium Sized Shelter*

The HDT Base-X Model 303 provides an interior clear span of 18 feet (5.49 m) wide and an area of 270 square feet (25.1m<sup>2</sup>), ideal for Battalion Size Command and Control, Medical, Communication, or Logistics Operations. The shelter has four entry and egress points and four windows.

Base-X shelters implement a patented folding frame design and a dual-layer system that makes deployment quick and simple. This dual layer system provides an inherent insulation and an energy efficiency advantage through the thermal barrier created by the enclosed air gap between the outer cover and the inner liner.

The system is contained in two durable bags easily hand-carried. Package one contains a PVC-coated outer cover attached to the articulating frame, and package two contains the inner liner. The liner includes an integrated floor, electrical wiring harness and air plenum. The system includes the stake kit, wind line kit, mallet and repair kit which fit conveniently into package two.

## KEY FEATURES

- Lightweight, low-cube, man-portable
- Pre-installed floor, electrical wiring and HVAC plenum
- Meets or exceeds all US Military requirements
- No ancillary equipment required for setup or strike
  - Sets up with 2 personnel in less than 8 minutes
- User friendly set up and tear down
- Configurations for US or foreign voltage
