

# JOINT LIGHT TACTICAL SHELTER (JLTS)

Shelter for the Joint Light Tactical Vehicle (JLTV)

The Joint Light Tactical Shelter (JLTS) provides a mobile shelter solution specifically designed for the Joint Light Tactical Vehicle (JLTV).

Using engineered composite walls that are expandable and lightweight, the JLTS is built to perform. Two expandable sides and an expandable roof allow up to four personnel to stand in the operation space. The two expanding sides hold up to 1,000 lbs. of equipment or 100U of 19" electronic rack equipment.

When not in use, the expanding sides and roof pack down to a compact size of 66" tall for high vehicle maneuverability and ease of transport on C-130 aircraft.

The JLTS installs easily without the need for special tools or modifications to the JLTV.

## KEY FEATURES

- Lightweight - under 1,400 lbs.
- Triple expanding. 475 cu. ft internal space, plus 50 cu. ft. under storage
  - Fits four standing operators inside
- C-130 transportable while mounted on JLTV
- Expandable sides hold 1,000 lbs. or 50 U of electronics each
- No modification or specialty tools required for integration
- Mounts up to two 18,000 BTU environmental control units
