

# HDT AIRBEAM® TOC 3236 SHELTER

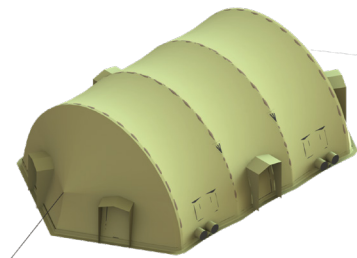

*Strong, Durable, and Rapidly Deployable*

HDT AirBeam Shelters are the most advanced tactical shelters of their kind. The ease-of-use, rapid deployment and strike capabilities meet or exceed all US Military requirements. Rigorous shelter durability testing includes more than 150 consecutive AirBeam shelter erection-strike cycles without incident. Additionally, the US Army selected the HDT AirBeam Shelter (Air Supported TEMPER Types) for the TMSS SICPS Program, Army Field Hospitals (AMEDD), and Force Provider, its premier base camp.

HDT's high-pressure AirBeam technology provides unparalleled strength, durability and rapid deployment with minimal personnel. A small logistics chain and parts count contribute to a low unit lifecycle cost.

The AirBeam 3236A Shelter is 32' wide and 36' long. It has a standard configuration of two (2) doors at each end and one (1) door and two (2) window on each side. The 3236 is compatible with all AirBeam complexing, booting and door kit options.

## KEY FEATURES

- AirBeam shelters feature an abrasion-resistant, water repellent and ultraviolet (UV) resistant cover assembly with an removable / replacable integral floor, an integrated inflation system, external bracing and stakes
- AirBeam shelter systems include vacuum, stake kit, sledge hammer, bracing kit, repair kit, transport cover, air compressor, stake puller and TEMPER vestibule
- AirBeam 3236 models contain four (4) beams
- AirBeam shelter liners contain two (2) electrical wiring harnesses, air distribution plenum, environmental control unit (ECU) duct openings, integrated hanging straps for lights and other accessories
